

**JOB TITLE:** Printing Press Operator

**LOCATION:** Burr Ridge, IL

### **COMPANY OVERVIEW**

GSI Technologies is the intelligent printing partner for Printed Electronics and Industrial Graphics products. Our extensive printing experience and dedication to customer satisfaction combined with our capital resources enables us to provide our customers with the highest levels of quality, service and value for their markets. GSI – where Intelligent Printing is the intelligent choice.

### **JOB DESCRIPTION**

#### **Broad Scope and Purpose:**

GSI Technologies has an exciting opportunity for experienced printing press operators for multiple positions across multiple shifts on both cylinder presses and flat bed roll-to-roll presses. Willing to train the right individual.

#### **Activities:**

- Prepares/sets up jobs from production schedule release. Sourcing all required materials to fulfill job demands.
- Reads work orders and interprets blueprints and engineering specifications to determine printer setup, methods and sequence of operation, following all appropriate ISO procedures.
- Selects, secures, positions and maintain required tooling, fixturing, guarding and raw materials to perform operations. Color matches or blends ink components as necessary to meet required specifications. Assistance maybe required.
- Responsible to report and maintain accurate ERP transactions in order to maintain cost, efficiencies, inventory and integrity.
- Responsible for routine minor maintenance of printing equipment (including cleaning, lubricating, adjustments and minor repairs).
- Responsible for repairing minor screen/plate defects to assure appropriate printing quality.
- Capable of prioritizing work across a designated department for most effective and efficient printing flow. Meeting all customer requirements.
- Uses statistical process control (SPC) to ensure product meets customer specification, following work instructions to trouble shoot errors.
- Other duties as assigned.

### **QUALIFICATIONS**

#### **Requirements:**

- High School Graduate or equivalent (GED) plus one to three years related experience and/or training; or equivalent combination of education and experience.
- Available to work a variety of shifts, including days, evenings, nights and weekends.
- High mechanical and problem solving abilities.
- A high level of motivation and energy with a positive demeanor and the ability to relate well with other employees.
- Ability to learn (and follow explicitly) the processes, procedures and systems related to the production line.
- Effective communication and computer literate.
- Excellent attendance and punctuality.
- Must be able to demonstrate technical and practical experience.
- Ability to lift up to 50 lbs.

#### **Preferred Experience:**

- 5+ years' experience as a press operator, utilizing SPC.
- Experience in a highly technical role.
- Familiar with ISO standards.
- Demonstrates effective trouble shooting and continuous improvement.
- Experience working to specific control limits.
